

**CONTAINER  
DEPOSIT  
SYSTEMS**

## **Mechanical Service Technician**

### **About the Company**

**Container Deposit Systems (CDS)** help make recycling work better. We have a lot of experience managing the recycling of drink containers. Our goal is to use smart, new technologies to improve how recycling centres operate, especially where people still have to handle materials by hand. We're a successful company committed to improving productivity through innovation!

### **Role Overview**

Reporting to the Production and Innovation Manager, the Mechanical Service Technician role is responsible for mechanical maintenance of CDS technology, assisting in the assembly of CDS equipment, and logistics of CDS equipment with a focus on maintaining safety.

The role requires exceptional organisational, prioritisation and time management skills as well as strong communication skills.

### **Key responsibilities include:**

- Carry out all work according to applicable regulations, codes and standards.
- Alert the Production and Innovation Manager to any noted or reported abnormalities in plant, machinery, equipment, and/or building faults.
- Maintain a mechanical maintenance manual and documentation.
- Unloading and loading, moving items around the workshop and site.
- Driving duties - picking up and dropping off equipment as required.
- Assisting in the assembly of CDS equipment
- Maintain and clean the equipment and workspace
- Maintain accurate documentation in line with ISO 9001 and 45001
- Remote product support

- 3+ years' trade experience required
- Experience with complex mechanical systems
- Mechanical, electrical, and pneumatic troubleshooting aptitude
- Problem-solving – a can-do attitude
- Ability to work efficiently through “seasonal” demands
- Excellent communication and organisational skills
- Ability to communicate complex technical issues in an easy-to-understand manner
- Strong customer service attitude and approach
- Excellent multi-tasking skills
- Self-driven, team player
- Willingness and ability to learn the CDS products
- Focus on quality and compliance
- Highly motivated and keen to apply initiative and improvement
- Effective at supply chain management
- Relevant tertiary and trade qualifications
- Available to work outside normal working hours, with some flexibility at short notice
- Must hold a current driver's licence
